

Amendment to the Sailing Instructions #1

Sailing Instruction 1.4 is deleted and replaced with the following:

1.4 RRS 55.3 Sheeting Sails is modified to allow the use of declared whisker poles or outriggers attached to the hull for the purpose of setting headsails. This does NOT permit using such poles/outriggers on Large Roach Headsails.

Reason: This replaces previous language that was not clear on whom could use whisker poles or outriggers and for what sails specifically.
